

## What is the Home Improvement Loan Program?

Burlington County receives an allocation of Community Development Block Grant (CDBG) funds each year from the Federal government to provide assistance to residents of Burlington County through a variety of local housing-related and public service projects.

The Board of Chosen Freeholders has designated a portion of these funds to be made available through the Home Improvement Loan Program, which is administered by Community Development and Housing.

The Home Improvement Loan Program provides technical assistance to qualified homeowners and makes 0 % interest property improvement loans of up to \$20,000 to correct substandard housing conditions and to eliminate health and safety hazards.

Examples of eligible work include foundation, plumbing, heating and electrical repairs, roof work, termite and dry-rot repairs, water and sewer hookups, energy conservation measures and remodeling to provide wheelchair accessibility.

Loans are made for the rehabilitation of owner-occupied single family houses only. Technical assistance provided through the program includes assessing the scope of needed repairs, consulting with building officials, architects and other professionals as needed, assisting the homeowner in obtaining bids and contracting for the repairs, monitoring construction and issuing payments.

### Who will perform the work?

All work must be performed by insured contractors. It is the homeowner's responsibility to select the contractor and enter into a contract for construction. Community Development Program staff are available to advise the owner regarding the review of contractors' bids, the selection of contractors and specific construction contract terms.

## How is your application processed?

The loan process involves the following steps:

- The applicant is interviewed by staff from the Community Development Office to determine preliminary eligibility and to explain how the program works.
- Upon the receipt and review of all documents, including verification of employment, title search and credit checks, the applicant will be notified that the program's Housing Inspectors will conduct a property inspection and prepare a work write-up listing all substandard housing conditions.
- The work write-up is reviewed with the owner. A preliminary cost estimate is prepared and bids are obtained from qualified General Contractors.
- Once there is an accepted bid and contract amount, the loan application is presented to the Board of Chosen Freeholders for approval.
- Upon approval by the Board, the loan documents are prepared and a closing date is scheduled.
- The owner then enters into an agreement with the chosen contractor and work begins. Payments are issued as the work progresses, after inspection and approval by the Municipal Construction Official (where applicable), program staff and upon acceptance of the work by the owner.
