

Upcoming Gas Meter Inspection

We'll be coming to your home soon to inspect your gas meter.

(Customer Name or Current Resident)
(Hse # Street)
(City, State Zip Code)

Dear (Customer Name or Current Resident):

We are inspecting natural gas meters in your neighborhood, ensuring the continued safety and reliability of your gas service. We conduct these safety inspections to check for surface corrosion, leaks and other conditions that might require repair. We anticipate that we'll get to your home **within the next 30 days**.

Here's what you need to know about the inspection:

- The inspection is free and will take about 10 minutes. It is not a meter reading.
- You do not need to make an appointment at this time. We will let you know if an appointment is needed for follow-up work.
- Unless your meter requires immediate repair, there will be no interruption to service.
- Someone over the age of 18 will need to give our technician access **if you have an inside meter**. The technician will need to perform a visual inspection of the meter.

Gas meters that are located outside also will be inspected. Although technicians will be on your property, customers do not need to be home for outside meter inspections.

We remind you to always ask for identification when a utility worker comes to your door. Our employees carry a PSE&G photo identification badge, wear PSE&G logo apparel and drive PSE&G cars or trucks. If you're not sure if the worker is one of ours, please call our customer service line at 800-436-PSEG (7734) to verify the identity of our employee.

We appreciate your help in ensuring that we can continue to provide you with safe and reliable natural gas service.

Thank you,

PSE&G Gas Operations
